The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 6 –12, 16-21 and 24-28 are rejected under 35 U.S.C. 102(b) as being anticipated by Ragsdale et al.

See Figs 6 and 9 where the mounting plate 124 houses two “positioning features” 210 and 220 which engage the side walls of a pool cover box. Re: claim 6, see the hole near the lead line for shaft 96. Re: claim 7, see col. 14, lines 29-30. Claims dependent on 10 and 20 that mirror the claims dependent on claim 1 are rejected as set forth supra.

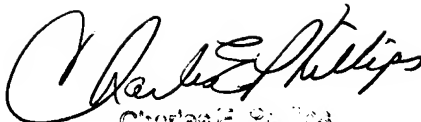

Claims 3-5, 13-15, 22 and 23 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Lamb, deceased et al show another pool cover mount.
